

*San Diego HRS presents our
monthly Speaker Series...*

Health Issues of the Elder Rabbit

Presented by Linda Knox, DVM, Palomar Animal Hospital. With advances in medical care and better educated caretakers, our rabbit companions are living longer lives. With longevity comes a host of other issues our buns may experience; arthritis and spinal degeneration, cataracts, chronic weight loss and, potentially even cancer.

Dr. Knox will discuss the variety of health issues we may see and how to manage them. She'll give tips for keeping a closer eye on our older rabbit friends, what to watch for and when to take them to be seen by their vet.

4 to 6 p.m.
Saturday, August 14
HRS Adoption Center
4805 Mercury Street, Suite C
(corner of Mercury & Ronson Road)
